

ODHA STUDENT AMBASSADOR PROFILE – Alexandra Zadow

SCHOOL: Canadore College

What made you want to become a dental hygienist?

When I was younger, a family member suggested that I should become a dental hygienist in the future. Years later, after graduating from high school, my interest in the field remained strong, and I decided to pursue a career in dental hygiene.

What type of practice setting do you hope to work in?

I envision myself working in a clinical care setting for several years before transitioning to a role in public health. I have also always had a strong interest in orthodontics and hope to work in this area at some point in the future as well.

How will you celebrate your graduation?

I plan to celebrate my graduation by spending quality time with my family and friends, going out for a celebratory dinner, and taking some personal time to relax and enjoy the moment after all the hard work and dedication.

What do you think dental hygiene students should know about their free student membership?

Being a part of the ODHA has been such a positive and valuable experience throughout my three years in the dental hygiene program. It has helped me stay up to date with new and evolving information in the field, while also providing ongoing support and guidance throughout my journey.
