

ODHA STUDENT AMBASSADOR PROFILE – Brooklyn Cann

SCHOOL: Durham College

What made you want to become a dental hygienist?

I always knew I wanted a job in healthcare, and while looking into future career options while finishing up high school, dental hygiene really caught my eye. I enjoy health and wellness promotion, as well as connecting with different people, so I thought it would be the perfect career for me.

Now that you've graduated, what type of practice setting will you be working in, or do you envision yourself working in? If you do already have a job lined up, tell us a little about it!

Now that I am about to graduate, I have dreams of working in a pediatric/children's dental clinic. I have always loved working with children and had the opportunity to do an observational placement in a children's dental office this summer, which really secured my interest in working in that environment.

How will you celebrate your graduation?

I will be celebrating my graduation alongside my fellow classmates and professors following our final clinic. I will also be celebrating with my family and friends at home - I am hoping to enjoy the sunshine as much as I can for the remainder of the summer!

What do you think dental hygiene students should know about their ODHA membership?

As a dental hygiene student, knowing what benefits you have is very important. The ODHA student membership is free and provides many amazing perks. The ODHA is also dedicated to providing resources to students and registered dental hygienists, both for your career or at home! I personally took advantage of the Canada's Wonderland discount multiple times throughout my program!
