

## **ODHA STUDENT AMBASSADOR PROFILE – PIYUSH LOGANI**

**SCHOOL: Confederation College**

### **What made you want to become a dental hygienist?**

I had always loved promoting oral health education, even when I was a dentist back home in India. I got introduced to dental hygiene by a friend and immediately fell in love with the profession. I have loved being a part of it for the last 3 years and can imagine myself being a dental hygienist for a long time.

### **Now that you've graduated, what type of practice setting will you be working in, or do you envision yourself working in? If you do already have a job lined up, tell us a little about it!**

I already have a job offer which I have accepted and will be joining in the moment the results are out of the NDHCE. I am relocating to Kenora, a beautiful town in Ontario, close to Winnipeg. I am excited about this new venture and look forward to working with the team there.

### **How will you celebrate your graduation?**

We have an awards night lined up, the night before our actual graduation ceremony. I am excited about seeing each other professionally and then meeting with all the instructors and professors who have shaped it all for us. I plan to take a trip down south after graduation and look forward to scuba diving.

### **What do you think dental hygiene students should know about their ODHA membership?**

I think the students should know about all the perks and advocacy that the ODHA does for the profession. They should know that as members of the Ontario Dental Hygienists' Association (ODHA), dental hygiene students can access a wide range of benefits and resources to support their career development. These may include access to continuing education opportunities, networking events, job postings, and information on the latest trends and best practices in dental hygiene.
