

ODHA STUDENT AMBASSADOR PROFILE – SARANDEEP KAUR

What made you want to become a dental hygienist?

I became interested in the field of dental hygiene because I have a strong passion for helping others and promoting overall health and wellness. I also enjoy working in the healthcare field and was drawn to the opportunity to make a direct impact on people's oral and overall health.

Now that you've graduated, what type of practice setting will you be working in, or do you envision yourself working in? If you do already have a job lined up, tell us a little about it!

After graduation, I plan to work in a private dental practice setting, where I can establish relationships with patients and be a trusted member of their healthcare team. I am excited to utilize my skills and knowledge to make a positive difference in people's lives.

How will you celebrate your graduation?

I plan to celebrate my graduation by spending time with my family and friends, as well as reflecting on my hard work and accomplishments over the past few years. I may also plan a small gathering or treat myself to a special activity to commemorate this milestone.

What do you think dental hygiene students should know about their ODHA membership?

As a dental hygiene student, it is important to understand the benefits and resources available through ODHA membership. This includes opportunities for continuing education, networking, and advocacy for the profession. ODHA also provides support and resources for professional growth and advancement, making it a valuable resource for all dental hygiene students and practitioners.
